Source: School census for actual enrolments and DE School Access Team for approved enrolments.

Note:

1. Actual Enrolment is the actual number of pupils on the school roll as at the October 2011 school census and includes children in receipt of a statement of special educational needs, admitted on appeal or by direction of the Exceptional Circumstances Body. These pupils are supernumerary to a school's approved enrolment number.

2. Approved Enrolment is the approved enrolment number for the 2011/12 school year and does not include any temporary variation to that number which may have been granted by the Department.
3. Difference in enrolment numbers has been interpreted as unfilled places. Unfilled places are calculated by subtracting the actual enrolment, less statemented children and those admitted by the Exceptional Circumstances Body, or on appeal, from approved enrolment totals. They are not equal to approved enrolment minus actual enrolment.
4. Approved enrolment numbers are not set for preparatory departments, as open enrolment legislation does not apply to preparatory departments of grammar schools.

‘\*’ means a figure relating to fewer than 5 unfilled places, where that figure would allow the identification of pupils with a statement, or admitted on appeal, or by the Exceptional Circumstances Body, has been suppressed, to prevent disclosure of sensitive information.
