AQW 20710/11-15 25 March 2013

## Roy Beggs has asked:

To ask the Minister of Education, pursuant to AQW 11006/11-15, (i) to detail the rate per thousand of primary school pupils who had less than 85 percent attendance in 2011/12, broken down by (a) council area; and (b) electoral ward; and (ii) what further action is being taken to reduce the levels of absenteeism.

The Department collects pupil level attendance information which allows for in-depth analysis of patterns and levels of absence, by school and pupil characteristics, informing how current approaches to tackling poor attendance might be more effectively targeted.

My Department Funds the Education Welfare Service (EWS) within the five Education and Library Boards. The EWS receives referrals from schools when pupils' attendance is a cause for concern or when attendance drops below 85%. The EWS also supports schools through proactive work on attendance strategies and advising on attendance policy.

A research study to identify strategies which have been successful in improving attendance in schools serving disadvantaged areas has recently been completed (May 2012) and has been published on my Department's website. The attendance research made four overarching recommendations, all schools should have attendance policies, resources should be provided to schools illustrating interventions, evaluating the impact of interventions on attendance and the sharing of good practice.

Officials are now working with the Education Welfare Service and schools to develop guidance which will address the recommendations in the attendance research study. This guidance is due to issue to schools at the end of the current school year. A leaflet reinforcing the need for regular attendance is also due to issue from the Department to all pupils in year 1 and year 8.

The table below details the rate per thousand of primary school enrolments with less than 85% attendance by District Council Area in 2011/12.

District Council Area	ea Rate per thousand enrolments with less than	
	85% attendance	
ANTRIM	46.1

## Notes on data

The data refers to all pupils enrolled in Years 1 - 7 in 2011/12.

Pupil level information refers to the number of pupil enrolments rather than the number of pupils. A pupil can move schools during the year and will therefore have an attendance record at more than one school.

Pupil residence has been used for this analysis; therefore the District Council and Ward refer to where the pupil lives rather than to where the school is located.

It was not possible to include figures for six primary schools in 2011/12, three of which had recently closed, a further two which were new and one school which was experiencing technical problems.

Postcode was not recorded for 1,583 enrolments; therefore they could not be included in this analysis. Of these, 151 had less than 85% attendance (2.1% of the total group with less than 85% attendance).

Some rates are based on a small number of pupils resident in a ward. The attendance of one pupil may significantly impact on that ward's rate/1,000.
