

Dear Ms McArdle

I am contacting you on behalf of Janet Arneill, Trouw Nutrition.

We have received a letter from yourself requesting our views on the debated subject of 'Farming in Crisis'. You have requested our views as a processor. However, as we are a premix manufacturer and as such are part of the supply chain into the farming sector, I do not feel that we can bring anything of interest to your debate at this time.

Kind Regards

Karen Smith
