

I am opposed to the 'Abortion Zones' Bill. This criminalises those who are ant-abortion.

People protesting in these circumstances are not a threat to those entering or leaving these premises.

We are representing the value and dignity of those babies being destroyed.

We recognise that these children need representation.

Criminalising this representation is surely not what our society is about.

I am opposed to this move and would ask that the committee recognises that this right to protest and represent is a fundamental right.
