

The very title of this proposed bill is alarming to say the least("Safe Access Zones)"from what"?, pro-life people giving out leaflets, holding a sign, silently praying and offering alternative help, to women in crisis pregnancy, some women have actually change their mind and had their child, what is wrong with that.

The pro-life movement are not exactly handing out drugs, or obstructing people going about their business they are fundamentally a peaceful organization, they are not criminals.

Where is Clair Baileys evidence of harassments ,by pro-life groups, she has not produced any evidence going forward thus far in her action, also we must take into considering the large amount of money it will cost the taxpayer, to impose, and uphold this unnecessary law if it is passed.

The police already have adequate powers to deal with breaches in peaceful protests that turns unlawful.

If anything we must strengthen the law more to protect peaceful law abiding groups like the Pro-Life movement, from harassments.

Freedom of assembly and freedom of expression, they are fundamental human rights under Articles10 and 11 of the Human Rights Act.

I am strongly opposed to any law that would discriminate against any peaceful group, that have a different view point to others, or to obstruct freedom of speech of any individual or a community to "articulate" in anyway that is peaceful, their opinions and ideas without fear of retaliation, or legal sanction.
