

I write to you in an effort to try my very best as a child of God to help any woman undergoing a crisis pregnancy to choose a way other than terminating the life of her unborn child.

It is surely not a crime to stand and pray outside abortion centres. It is only but right to offer help and support to someone in need. Please, please help us to offer real help to women in need, with help which allows the unborn child to come into the world alive not murdered.
