

I wish to have my voice heard and added to the proposed Abortion Services, Safe Access Zones.

To my knowledge there was no consultation in terms of public awareness or for pro life advocates about this proposed new bill.

Apart from the call for evidence by the health committee regarding same which was not publicised. It is my understanding that the purpose of this bill is to criminalise and pro life activity around abortion centres.

I sincerely hope my understanding is in correct because I was stunned on being made aware of this irrational concept in the making.

This will create chaos and out cry and rightly so.

Does this mean there will also be "pro choice safe access zones" ?

Where do you draw the line in matters of morals and conscious awareness.

Where are peoples civil rights to make a peaceful demonstration.

Fundamentally, this is and should be about creating educational pursuits instead to educate the public about the awful effects of abortion on peoples lives and its after effects.

I do hope you will give this the due consideration it deserves before this bill gets finalised.
