

EMER
Hazelwood Integrated
Primary School

TO, Northern Ireland Executive

I am writing this letter to you to explain why there should be more Integrated schools.

I am a student at Hazelwood Integrated Primary. My experiences of an Integrated School has taught me that you can be friends with everyone and anyone. I have some of my best friends are Protestant and some are Catholic.

I am sure you know that there are only 65 Integrated Schools in our country and only 7% of children go to Integrated Schools. This is simply not enough. I hope you try and make a stand for a better future.

Integrated Schools are so important because they help kids play with other religions. Brings communities together in a safe environment.

I am sure you would now agree how important Integrated Schools are for the future. I hope you can change this.

Regards

Emer Casey P.6
