

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Cathie Creelman** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Cathie Creelman and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Aislin Cole** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill in a bid to eradicate sectarianism in Northern Ireland. This Bill should be a strong one, not a diluted piece of legislation that seeks to give the illusion that Stormont are taking steps to improve cross community relations. We need our leaders to stand together and secure a stronger future for the children of Northern Ireland. Non-integrated schools prevent our children from learning that being different is OK; they are truly a thing of the past. Think about what NI would be capable of achieving if we closed the divide and if we finally drew a line and moved on - this country would thrive!

I've just had a set of twins 14 weeks ago and we live in a mixed area but the 'invisible Berlin walls' aren't so invisible to us. It's sad that even in mixed areas we just about tolerate each other. I want my children to have protestant friends and I want it to be their normal. We can educate them about the past in a positive way.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Andy Carden** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill. I know from personal experience with my own children that integrated education is a powerful tool for peace and mutual respect in Northern Ireland. Integrated, all-ability schools also remove the stigma of eleven plus failure that harms so many of our children.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **CATHERINE O'CONNOR** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

CATHERINE O'CONNOR and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Daniel Monaghan** wrote:

---

Dear Education Committee,

Before forwarding this response I wanted to add my own experience of integrated education in Northern Ireland.

I am the product of a mix marriage and went to Lagan College, the first integrated school in the country. It is my view that integrated education is the single biggest initiative we can take in Northern Ireland to ensure the lasting peace and reconciliation of our communities. This type of schooling has been shown to reduce sectarian attitudes and the likelihood of political violence. Peace is crucial for our children and educating them together will ensure this peace. It is possible to celebrate the traditions and history of all people in these institutions, but without the risk that those traditions and narratives are presented to the next generation in a separating and exclusionary way.

There is also a cogent economic argument to integrated education that is very pressing. How much longer should we attempt to sustain four or five schools in place of one or two? It doesn't seem to make any sense.

Below is the standard commentary from the website coordinating this response. I would ask you to consider these issues carefully and to make the right choice for the children and communities of Northern Ireland and back a fully integrated education system.

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.

- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Janice Newkirk** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Janice Newkirk and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Nigel Morris** wrote:

---

Dear Education Committee,

I would like to respond to the call for evidence on the Integrated Education Bill.

I strongly support integration in our schools to start an end to the sectarian divide in our society. I support all the policy objectives of the bill, including:

- Putting a statutory, and reportable, duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly. The strategy should have firm targets, with responsibilities for each of the entities involved to report against and deliver against, with the risk of funding being transferred to entities that will deliver. Ministers will find reasons to explain away non-delivery, but if their budget and departmental scope is at risk there will be far more compliance.
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools receiving any government funding, tax relief or support of any sort, should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

It is unbelievable that 71% of people in Northern Ireland consistently say they strongly believe our children should be educated together and yet our politicians have consistently failed to deliver this, for their own, backward looking ideological views. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Richard Major and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

After growing up in 'the troubles' and as a witness to the Omagh bombing, I believe that 'faith schools', those that segregate children on religious grounds, only deepen the divisions in our society and do nothing to heal the wounds of the past. Religion should be kept out of education and taught as a general subject, and not influence schools in any way. Children should be educated together, those of all religions and none in the same educational establishment, and the practice of religion kept external to school life.

On the 15th August 1998 I spent the day picking dead children off a street in Omagh....they were of different religions and nationalities. The victims of the troubles are from all sections of our community and beyond. Our education system should be a reflection of the whole of society, not divided up into different factions, like the belligerents of the conflict here.

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill.

At 68, I was brought up separately. Separate schools, separate housing, separate churches. But same God, same evaluations of what makes life worthwhile, same aspirations for our children. I didn't interact with others from the 'opposite' tradition on a daily basis until I went to higher education. If you were to create a new society that generated suspicion, this would be the model to adopt.

My mother went to a National School in the 1920s that had children from both traditions in attendance. She learnt to distinguish good from bad by character and not by religion or culture.

Some of my best friends are ones I made at school and we retain that friendship through holidays, God-parenting and mutual support. School friendship are vital in learning about our similarities and dealing with the differences. Rarely do those similarities and differences begin, coincide or end with religion. Having taught in London Comprehensives for 10years, I know the value of interaction and social exchange. It wasn't always easy, but good schools used the literal common ground as a forum. You can continue shaking your head thinking we might not be ready for it, but who amongst you is going to take the first step and do something about our divided communities on a Northern Ireland-wide framework? Integrated schooling IS a possibility, much more than integrated housing will be for many years. Take it.

At the very least, you should be able to recommend that the VAT status of Integrated Education equal that of other schools enabling the Integrated sector to recover VAT and so at least get it on a level financial playing field.

Best regards  
Vincent

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Martin Devlin and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

My father received his education in Derry City in the 1950 to 1960s, and wished that schools were integrated. Secondary schools in the Republic are mostly integrated, and I only wish primary schools were also.

Regards Dominic

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Frank Murray and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Get rid of the Orange Oder, hate stirring July 12th marches, Dissident Republican marches and other sectarian institutions first. By the way Catholic schools do not teach sectarianism, perhaps the Protestant state run schools but certainly not the catholic schools that I went to. Furthermore I had both Catholic and Protestant friends growing up, if there is an issue with not meeting people from the other divide start with the parents and address things like loyalist gangs who target and evict young innocent Catholic single mothers. Stop blaming the schools!!! They are not the problem!

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Regards,  
Sophia McGinnis from Derry/ Londonderry

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.  
As part of this campaign, member **Jordan H** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Tracy Gamble** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Tracy Gamble and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Vernetta Hillen and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

As part of this campaign, member **Anthony HOGAN** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Bryan McNulty** wrote:

---

Dear Education Committee,

When I first came to Northern Ireland 38 years ago, I talked with people involved in creating an integrated school in Newcastle.

It made such obvious sense for Northern Ireland: You educate young people together and they are far less likely to internalise fear, anger and hatred directed against members of the other community.

Since there was an obvious way to diminish sectarianism through education, it only made sense that the primary funding source- the Northern Ireland Government - would create a transition period through its funding of education to nudge a majority of children into integrated schools.

I was astonished to learn that integrated education has essentially languished at the same percentage of the school population for 38 years. What a missed opportunity!

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Claire Blennerhassett** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Claire Blennerhassett and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

EMMA CAMPBELL and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

Integrated education is where the Assembly funds are spent. The people who want sectarian education should be the ones who are left to fund raise to support the propagation of their prejudices.

- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

As part of this campaign, member **Karl Murphy** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Mary Adams** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Mary Adams and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee, Northern Ireland Assembly,

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Ann Smyth** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Ann Smyth and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

**Nicola Browne** has created a campaign entitled **Support the Integrated Education Bill** on [Uplift](#) that identifies you as the decision maker.

As part of this campaign, member **Nichola Mc cabe** wrote:

---

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

---

Nichola Mc cabe and the other supporters of this campaign care deeply about the issue and would appreciate any response or feedback you have.

- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.

Dear Education Committee,

This is a response to the call for evidence on the Integrated Education Bill.

I support all the policy objectives of the bill, including:

- Placing a duty on the Department of Education and other education bodies to promote, not merely encourage and facilitate, the development of integrated education and provide resources for this purpose.
- The development of an Integrated Education Strategy to be published and reviewed regularly
- Proper auditing of demand must be carried out into the demand for integrated education in Northern Ireland by area.
- That all new schools should be integrated schools.
- That funding is dedicated by the Department of Education to facilitate integrated education.

71% of people here believe our children should be educated together. And so we call on the Committee to ensure this bill is passed in its current form, and provides a basis for integrated education to flourish in Northern Ireland into the future.
