

NI Committee for Health Consultation on opt-out organ donation

I would not be in favour of an opt-out system for organ donation. I feel I have the right as a human being to decide if I wish to donate my body organs. I do not think it is right for the government to assume they can have my body parts. The existing system of organ donors has already seen a 60% increase in organ donation so why fix what is not broken? I think government have to be transparent with the public and make it clear what they are doing. Let people decide what they wish to do.

Thank you for the opportunity to express my heart felt opinion.
