

To whom it may concern

I wish to give my wholehearted support to MLA Paul Girvan's Severe Fetal Impairment Abortion {Amendment } Bill. As an allegedly modern democratic society I find it beyond belief that certain unborn children do not have a right to life simply because they have a disability. Abortion of babies on the ground of disability is out of keeping with our inclusive society. As a result of the abortion mechanism that was forced on us by Westminster in 2019 babies can be aborted up to birth for such disabilities as Down's Syndrome, club foot or cleft palate. This makes a mockery of discrimination laws – an unborn baby judged to have a disability does not have the same legal protection as other babies deemed to be "perfect".
