

To MLAs: re the Severe Fetal Impairment Abortion (Amendment) Bill

I want to write to you in support of this Amendment and to urge you to pass it.

To allow babies to be aborted on the ground of disability is not what a civilised and inclusive society should be promoting.

Northern Ireland (of all places) must not be somewhere where people are discarded in abortion just because they are different from others. The thought is blatantly unjust and lacking in compassion.

Please do what the majority of people across our divided society would wish for and support this Amendment.
