

Dear Sir/ Madam

I am making this submission to the Committee in support of the Severe Fetal Impairment Abortion (Amendment) Bill.

The world renowned geneticist, Dr Jérôme Lejeune, who discovered the Down's Syndrome chromosome (Trisomy 21), said this, "One phrase, only one, will dictate our conduct, the expression of Jesus himself: 'What you have done to the least of my own, you have done it to me'."

Each and every unborn child, and especially those with disabilities, need to be loved and protected and given every possibility to live their irreplaceable and unrepeatable life.
