

People, if you can be called that when you allow such gruesome acts of murder, Have you no heart? Clearly facts that children born with these three disabilities are NOT lesser people like you and me do not speak to you anymore.

If your mothers knew what diabolical ideas you stand for, would you have been ok for her to abort you? Or is she knew in advance that you would be this stupid?

This will be neverending, this sick lust for power and dominance that you display.

You have no spec of humanity in you.

There\'s no ounce of love for your closest in you, as you cannot serve two masters- life and love or death and hate. You cannot say that you love anyone if you allow for this to go through. Shame is the least of evils that will fall upon you. The blood of these children are all over your hands and your cold vile hearts.

I worked with adults who had these disabilities, side by side for a long time and NEVER have I met funnier or more positive people. They were a sunshine for everyone, especially a girl called [REDACTED], who had so much wit and heart you all collectively do not have. She had the best scores continuously. How I wish I could put her in front of you and you could tell her then that she is worth the death sentence.

I wish I had any of these disabilities so I could stand in front of you and you could tell me one by one in what manner you wished to kill me for something that was not in my power.

Vile. Nothing but vile.
