In court 9 years, in High Court 7 of them, had a shared residency order, mother refused to comply nothing done, and now not seen [REDACTED] in 5 years. Mother accosting my [REDACTED] in public, false accusations after false accusation, children failing in Grammar school (badly). False claims lodged with Criminal Compensation branch in DoJ (legally aided), false arrests, criminal prosecution on mother, house raided for false allegation from mother of downloading indecent images. Abuse of police resources, False legal aid claims certified by a High Court Judge that I had to challenge as a LIP and the High Court judge only after getting letter from NIAO /C and AG had to change 75 court orders awarding mother legal aid. Cost to public purse over £1m. I could go on but it's more of the same.

She has pushed me close to suicide so many times.

If the committee wish to chat I am up for it, but if not, grand. I have shared with BBC anyway who are planning to do a story on such matters.

I now spend my time helping mums and dads through the system and it is horrific abuse.

I follow the committee and AQ's closely.
