

### Part 1 Policy scoping

The first stage of the screening process involves scoping the policy under consideration. The purpose of policy scoping is to help prepare the background and context and set out the aims and objectives for the policy, being screened. At this stage, scoping the policy will help identify potential constraints as well as opportunities and will help the policy maker work through the screening process on a step by step basis.

Public authorities should remember that the Section 75 statutory duties apply to internal policies (relating to people who work for the authority), as well as external policies (relating to those who are, or could be, served by the authority).

#### Part 2

### **Screening Questions**

#### Introduction

In making a decision as to whether or not there is a need to carry out an equality impact assessment, you should consider your answers to the questions above.

In addition, the five screening questions below further assist you in assessing your policy and must be completed. Two of these questions require you to assess the level of impact of the proposed policy on "equality of opportunity" and "good relations". The scale used when assessing this impact is either "None", "Minor" or "Major". The following paragraphs set out what each of these terms mean.

If your conclusion is <u>none</u> in respect of all of the Section 75 equality of opportunity and/or good relations categories, then you may decide to screen the policy out. If a policy is 'screened out' as having no relevance to equality of opportunity or good relations, you should give details of the reasons for the decision taken.

If your conclusion is <u>major</u> in respect of one or more of the Section 75 equality of opportunity and/or good relations categories, then consideration should be given to subjecting the policy to the equality impact assessment procedure.

If your conclusion is **minor** in respect of one or more of the Section 75 equality categories and/or good relations categories, then consideration should still be given to proceeding with an equality impact assessment, or to:

- measures to mitigate the adverse impact; or
- the introduction of an alternative policy to better promote equality of opportunity and/or good relations.

### In favour of a 'major' impact

- a) The policy is significant in terms of its strategic importance;
- Potential equality impacts are unknown, because, for example, there is insufficient data upon which to make an assessment or because they are complex, and it would be appropriate to conduct an equality impact assessment in order to better assess them;
- c) Potential equality and/or good relations impacts are likely to be adverse or are likely to be experienced disproportionately by groups of people including those who are marginalised or disadvantaged;
- d) Further assessment offers a valuable way to examine the evidence and develop recommendations in respect of a policy about which there are concerns amongst affected individuals and representative groups, for example in respect of multiple identities;
- e) The policy is likely to be challenged by way of judicial review;
- f) The policy is significant in terms of expenditure.

### In favour of 'minor' impact

- a) The policy is not unlawfully discriminatory and any residual potential impacts on people are judged to be negligible;
- b) The policy, or certain proposals within it, are potentially unlawfully discriminatory, but this possibility can readily and easily be eliminated by making appropriate changes to the policy or by adopting appropriate mitigating measures;
- Any asymmetrical equality impacts caused by the policy are intentional because they are specifically designed to promote equality of opportunity for particular groups of disadvantaged people;
- d) By amending the policy there are better opportunities to better promote equality of opportunity and/or good relations.

#### In favour of none

- a) The policy has no relevance to equality of opportunity or good relations.
- b) The policy is purely technical in nature and will have no bearing in terms of its likely impact on equality of opportunity or good relations for people within the equality and good relations categories.

Taking into account the evidence presented above, consider and comment on the likely impact on equality of opportunity and good relations for those affected by this policy, in any way, for each of the equality and good relations categories, by applying the screening questions given overleaf and indicate the level of impact on the group i.e. minor, major or none.

#### Additional considerations

# Multiple identity

Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities? (For example; disabled minority ethnic people; disabled women; young Protestant men; and young lesbians, gay and bisexual people).

Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.				
None				

# Part 3 Screening decision

1. If the decision is not to conduct an equality impact assessment ( <i>none</i> please provide details of the reasons.
No level of impact on any specific/multiple Section 75 categories has been identified during the screening .
2. If the decision is not to conduct an equality impact assessment, but the policy has minor equality impacts which can be mitigated/provided by an alternative policy, and therefore does not require and EQIA ( <i>minor</i> ) provide details of the reason for the decision with proposed
changes/amendments for an alternative policy to be introduced.  N/A
3. If the decision is to subject the policy to an equality impact assessment ( <i>major</i> ), please provide details of the reasons.
N/A

# 4. Timetabling and prioritising

Factors to be considered in timetabling and prioritising policies for equality impact assessment.

If the policy has been 'screened in' for equality impact assessment, then please answer the following questions to determine its priority for timetabling the equality impact assessment.

On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

Priority criterion	Rating (1-3)

Social need	Click	
Effect on people's daily lives

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the CCSU in timetabling. Details of the Equality Impact Assessment Timetable will be included in the quarterly Screening Report.

Is the policy affected by timetables established by other relevant public
authorities?
Yes □ No ⊠
If yes, please provide details

### Part 4 Monitoring

Effective monitoring will help identify any future adverse impact arising from the policy which may lead the Commission to conduct an equality impact assessment, as well as help with future planning and policy development.

The Equality Commission for NI (ECNI) recommends that where a policy has been amended or an alternative policy introduced, the public authority should monitor more broadly for adverse impact.

See ECNI Monitoring Guidance for use by Public Authorities (July 2007) pages 9-10, paragraphs 2.13 – 2.20

What data are required in the future to ensure effective monitoring?

What are these policies? Please list:
