**Subject:** OFFICIAL SENSITIVE - Dates

Lesley

Further to our conversation this morning we still want to avail of the date discussed but due to availability of a member of the panel the event will have to be held in the afternoon at 2pm. I think it may be wise to hold the room for the full day to enable Pi to set up and test as necessary in advance of the live event.

I will give you a call later this afternoon ahead of when we intend to publicly announce the date.
