

Northern Ireland Assembly

Environmental Policy Statement

The Northern Ireland Assembly Commission (the Commission) is committed to becoming an exemplar organisation in respect of sustainable development and recognises that effective environmental management is a major contributing factor in achieving this high level aspiration.

The Commission understands that its activities have both direct and indirect environmental impacts and therefore aims to act responsibly in everything it does to help reduce these impacts and move towards a more environmentally sustainable future.

In support of these principles, the Commission is committed to the following:

- Continually improving the environmental performance of the Assembly through the maintenance of an environmental management system which conforms with the requirements of the ISO 14001 Environmental Management Systems Standard;
- Complying with all relevant environmental legislation and other environmental requirements;
- Reviewing the Assembly's environmental performance at regular intervals
- Reducing and preventing pollution where possible by responsibly managing our impact on the environment through the development and implementation of effective strategies for waste and resource management;
- Working with our suppliers to reduce the direct and indirect environmental impacts of our supply chain;
- Communicating this Policy to all building users to help increase their environmental awareness; and
- Making this Policy available to the public.

Mitchel McLaughlin MLA, The Speaker
Chairman of the Assembly Commission

Trevor Reaney
Clerk/Chief Executive
