

**REF:Bill Number:** Bill 17/11-15

**Bill Type:** Executive

**Bill Sponsor:** Minister of the Environment

I am writing to oppose **Bill Number:** Bill 17/11-15 and the double counting of economic factors when considering planning applications.

This paves the way for those whose interests are purely financial to dictate and have more weight than citizens and residents with a vested interest in keeping the environment and country clean and healthy.

We can learn from others mistakes and create a more balanced society however allowing this bill to pass will mean an end to everything that is unique and allow those for whom money and power is everything to have their way.

Thanks.

Fiona Jones
