Public Accounts Committee Evidence Session – Request for Follow-Up Information

Dear David,

The Committee has requested that further information is provided in relation to the Invest to Save funding in Northern Ireland inquiry. In addition to the letter dated 4 February 2016, can you please provide details on the following:

- Reference was made to 7 schemes that are to be evaluated, 3 of which have been completed. Can you provide details of the schemes which have been evaluated as well as the other 4 schemes and when these are due to be evaluated;
- You indicated that you have a cross-cutting reform programme with 30 separate projects designed to promote better interdepartmental working and better delivery of services to the citizen. Can you please provide a listing of these projects?

Please highlight in your response any redactions or restrictions on information that you provide to the Committee as this will be published as part of our inquiry.

If you are responding by email please use the email address above. Due to the tight deadlines surrounding this inquiry I would appreciate a response on the above issues by **26 February 2016**.

Yours sincerely,

A handwritten signature in black ink on a light yellow background. The signature is cursive and appears to read "John Dallat".

John Dallat
Deputy Chairperson
Public Accounts Committee
