24 November 2015

Dear Andrew

**Public Accounts Committee Evidence Session – Request for Follow Up Information**

Thank you for your letter of 13 November in which you provided further detail in respect of the Northern Ireland Events Company.

The Committee considered your correspondence on 18 November. In particular the Committee considered your concerns regarding my summation at the evidence session. I am disappointed that you did not raise your concerns at time, however as you stated at the session, the “Committee can rightly express a view on whether there is value for money.” It was within this context that I based my summation.

The Committee is currently considering all the evidence (oral and written) relating to this inquiry to form its opinion. This will be reflected in the Committee’s report which will be launched in the New Year.

Yours sincerely,

**Michaela Boyle**  
Chairperson  
Public Accounts Committee
