1 December 2015

Dear Michaela,

PUBLIC ACCOUNTS COMMITTEE (PAC) EVIDENCE SESSION – REQUEST FOR FOLLOW UP INFORMATION

Thank you for your letter of 19 November, following my attendance at the PAC's evidence session on 11 November 2015, requesting some additional information.

I have responded in the order requested in the letter which I hope is helpful.

- **A breakdown of the 2,222 pupils admitted to primary and post primary schools in 2014-2015 that were above the approved enrolment number.**

This information is attached at Annex A.

- **A breakdown of the number of schools that have been granted a temporary variation of their approved enrolment number and the reasons for the temporary variation.**

For the 2014/15 school year 86 primary schools and 56 post-primary schools had an authorised Temporary Variation (TV) increase to their approved enrolment numbers. All TVs were granted in line with the Department's TV policy.

The Department of Education (the Department) will grant a TV to a school's number for children who otherwise would have to travel an unreasonable distance to reach a school within their sector of choice. For the purposes of TVs the Department considers all schools to be included in four sectors, namely: Denominational (i.e.

maintained primary schools, maintained post-primary schools, denominational grammar schools), Non-Denominational (i.e. controlled primary schools, controlled post-primary school, non-denominational grammar schools), Integrated (i.e. controlled or maintained integrated primary or post primary schools) and Irish-medium (i.e. Irish-medium primary or post primary schools or Irish-medium primary or post-primary units). Schools classified as 'other maintained' (i.e. voluntary maintained schools that are not Irish-medium) are treated 'by exception' and outside of these four categories. For primary schools, reasonable travelling distance is defined as approximately two miles; for post-primary schools reasonable travelling distance is defined as a journey that can be completed by public transport in one hour or less and is not further than 15 miles travelling distance from the family home.

While this is the basis on which TVs are awarded, there are a small number of additional circumstances whereby a TV may be approved. To facilitate placement of children who have no other school available within reasonable distance, the Department may grant a small number of 'discretionary places' to pupils higher on the rank order who do have other provision available. In addition, for primary schools only, the Department may grant an additional place in exceptional circumstances for vulnerable pupils such as Looked After Children. Exceptional circumstances are not considered for post-primary school TVs because the Department established an independent body for this precise purpose; the Exceptional Circumstances Body.

- **A timescale for the completion of the scoping exercise to assess the extent of work required to review school capacity.**

A Project Manager within the Department's Investment and Infrastructure Directorate has been identified and project governance arrangements are being finalised. Preliminary discussions have taken place with the Education Authority (EA) under the auspices of the Property Centre Co-Ordinating Group and the EA has been tasked with undertaking an initial scoping and producing a report. It is anticipated that the scoping exercise will be completed by March 2016.

- **When the last appraisal was carried out on Dunmurry Primary School and if an inspection was carried out before the case study by the NIAO.**

A suitability survey was carried out at Dunmurry Primary School in April 2015; prior to this the school was surveyed in June 2012.

- **A copy of a sample letter that is sent to schools notifying them of their approved enrolment figure and what instructions/guidance is provided to the school in relation to this figure.**

This is included in the attached Annex B.

- **A copy of the Review of Sure Start report.**

A copy of the Independent Review of the Sure Start Programme is available on the Department's website via the following link:

<https://www.deni.gov.uk/sites/default/files/publications/de/final-report-review-of-sure-start.pdf>

The associated appendices are available at the following link:

<https://www.deni.gov.uk/sites/default/files/publications/de/Appendices%20-%20Review%20of%20Sure%20Start%20Programme.pdf>

- **A list of announced and unannounced inspection visits.**

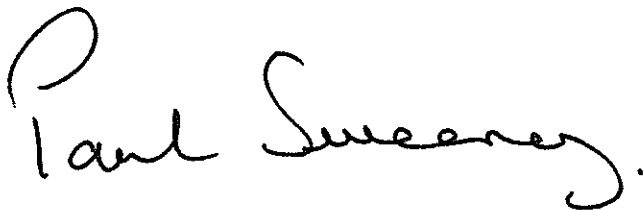

A list of announced inspection at both primary and post-primary schools is included at Annex C.

The following table outlines the number of unannounced school inspection visits that have taken place in each of the last two years in (a) primary schools and (b) post-primary schools.

	Academic year – 2013/2014	Academic year – 2014/2015
Primary	0	0
Post-Primary	0	1

I trust this information is helpful.

Yours sincerely

PAUL SWEENEY

Sample letter that is sent to schools notifying them of their approved enrolment figure

THE PRINCIPAL

23 September 2015

Dear Sir/Madam

ADMISSIONS AND ENROLMENT NUMBERS 2016/17 SCHOOL YEAR

1. The purpose of this letter is to consult with your Board of Governors about the admissions and enrolment numbers for your school for the 2016/17 school year which have been determined by the Department to be as follows:

Admissions Number:

Enrolment Number:

2. **If you are satisfied that the proposed numbers are correct you do not need to take any action.**
3. Any request for an amendment to the proposed admission and enrolment numbers should be with School Access Team at the earliest possible date and **no later than 9 October 2015**. This is to enable DE to consider your request and notify the Education Authority of the approved numbers for your school prior to publication of approved numbers. **Please note however, that any significant change to the character or size of the school can only be considered through the area planning process and requires publication and approval of a Development Proposal.** Further information about Development Proposals is available on the DE website.
4. The Department has the power to consider a temporary variation (TV) to a school's admission and/or enrolment number. Prior approval must be sought in circumstances where a school wishes to admit pupils in excess of its approved admissions and or enrolment numbers quoted in Paragraph 1.
5. Article 10(2) (a) and (b) of the Education (Northern Ireland) Order 1997 provides that a Board of Governors shall not cause or permit the number of registered pupils at the school, at any time, to exceed the school's approved

admissions and enrolment numbers. This is a statutory requirement and any Board of Governors which fails to comply with this requirement is acting unlawfully. In such a situation the Department has the power, under Article 101 of the Education and Libraries (Northern Ireland) Order 1986, to direct the Board of Governors to act within the law. Furthermore should a Board of Governors permit the number of registered pupils to unlawfully exceed the approved admissions and enrolment numbers, the Department will consider taking action to bring the school back into line with its approved numbers. Information on what actions may be taken is included at paragraph 37 of the Department's circular 2015/03.

6. I should be grateful if you would bring this letter to the attention of your Board of Governors.
7. If you have any enquiries about the content of this letter you should contact Tel: 02891 279966 or E-mail: schoolaccessteam@deni.gov.uk.

Yours faithfully

School Access Team
