# Current DARD Programmes/Supports specifically designed to address issues of rural poverty, rural isolation and farmer welfare

## 1 Background

This paper provides an overview of current DARD programmes which are specifically designed to address issues of rural isolation, rural poverty and farmer welfare.

Building upon previous papers under this theme, the briefing paper does not attempt to define rural isolation, rural poverty and farmer welfare, but rather reflects the approach that DARD is taking in relation to alleviate the issues.

The available types of support are presented within the context of the leading department being DARD, but as will be clear within the paper, there are notable examples of cross departmental working, and in such instances whilst primary reference will be made to the specific support under the lead department, the other departments involved will be identified.

The briefing identifies and quantifies support that DARD provides under the following 3 areas:

- Anti-Poverty and Social Inclusion Framework 2008-11/Tackling Poverty and Social Isolation Framework 2011-15;
- Rural Development Programme 2014-20; and
- Core funding support to Northern Ireland Women's Network (NIRWN) and Rural Community Network (RCN).

## 2 Anti-Poverty and Social Inclusion Framework 2008-11/Tackling Poverty and Social Isolation Framework 2011-15

The initial Anti-Poverty and Social Inclusion Framework ran between 2008 and 2011 and has been superseded by the Tackling Poverty and Social Isolation Framework which runs up until 2015. The overall aim of both Frameworks has been to ‘...*help the most vulnerable rural dwellers facing poverty and isolation.*’ Both frameworks have supported a range of measures and table 1 below outlines those that are currently running.

Table 1: Current DARD programmes/supports which are part of the Anti-Poverty and Social Inclusion Framework 2008-11/Tackling Poverty and Social Isolation Framework 2011-15

Measure	More detail on components	DARD spend to date (2011 to present)	Evaluation	Evaluation Recommendations/Discussion points/Observations
<b>Assisted Rural Travel Scheme (ARTS)</b> – Contribution to ensure Smartpass can be used on rural community transport partnership vehicles so holders can travel either free or half fare on dial a lift service – rural specific extension of Dial a lift provision by DRD	members of Rural Community Transport Partnerships are enabled to access a range of local services including essential and social health appointments, community activities, education, religion, shopping centres, banks and regular social contact with relatives and friends.	2011-15 £2,010,000	Interim evaluation report – April 2012-September 2013  <i>‘Assisted Rural Travel Scheme can be viewed as making a positive contribution to reducing social exclusion and rural isolation’</i>  <i>In period covered by interim evaluation there were a total of 278,654 ARTS supported journeys (among a total of 325,345 Dial-a-Lift trips) which indicates a willingness to use the service. This can be split between 181,698 ARTS supported journeys in 2012/13 (among a total of 214,570 Dial-a-</i>	<ul style="list-style-type: none"> <li>the next evaluation covering the period Apr 11 – Mar 15 should revisit the assessment of need for the project in the context of usage and uptake of SmartPasses in rural areas to determine if there continues to be a substantial differential when compared with urban areas;</li> <li>when risks are reviewed this should be minuted accordingly;</li> <li>the final evaluation should include a survey of those who have used the Assisted Rural Travel Scheme to provide an overview of the impacts from a user perspective especially how it has impacted on social exclusion and rural isolation;</li> <li>the final evaluation should establish the actual number of people who have used/benefitted from the scheme over the period of operation; and</li> <li>the final evaluation should have clearer terms of reference looking at both policy and operational</li> </ul>

Measure	More detail on components	DARD spend to date (2011 to present)	Evaluation	Evaluation Recommendations/Discussion points/Observations
			<p><i>Lift trips) and 96,056 ARTS supported journeys (among a total of 110,775 Dial-a-Lift) in the period Apr-Sep 2013</i></p> <p><i>Estimated that approximately 3,784 people directly benefitted from using the scheme in 2012/13 indicating an underlying need for the scheme.</i></p>	<p>aspects, with specific baselines and measures to ensure an easier assessment.</p>
<p><b>Farm Families Health Checks</b> - one-stop mobile facility offering free health assessments to farm families – service delivered by the Public Health Agency utilising DARD and PHA funding – new standalone project</p>	<p>Undertaken at 31 markets and 31 community based events</p> <p>2 parts to health checks:</p> <p><b>Medical assessment (10-15 minutes)</b> – conducted by qualified nurse and assesses</p> <ul style="list-style-type: none"> <li>• blood pressure;</li> <li>• weight and body mass index (BMI);</li> <li>• cholesterol;</li> <li>• blood sugar;</li> <li>• lung function;</li> <li>• mental wellbeing</li> </ul> <p><b>Lifestyle assessment (5-10 minutes)</b> - conducted by qualified nurse and provides an opportunity to discuss health issues with the nurse. Depending on your lifestyle, will receive tailored advice f on</p>	<p>2011-15 £412,000</p>	<p>Interim evaluation report - January 2014</p> <p><i>‘Analysis indicated that screening had a positive impact on clients’ lifestyle choices and health-related behaviour’</i></p> <p><i>‘portion of clients who raised concerns about their mental health was low ...However, half of the clients advised to see their GP about mental health concerns actually did so’</i></p>	<ul style="list-style-type: none"> <li>• programme should continue to visit both farmers’ markets and community-based events in Northern Ireland to provide advice and signposting for a mix of clients.</li> <li>• may be opportunities to expand on the types of locations visited ensuring access to clients who are hardest to reach</li> <li>• Consideration could be given to excluding clients who have already attended their GP within the three months preceding</li> <li>• screening is particularly effective in identifying people with a high BMI, however this is the issue for which clients appear least likely to follow up with their GP, even when advised may be helpful if nurses could make clients aware of what GPs can do to help clients with weight for example referral to weight loss programme or physical activity initiatives</li> <li>• it would be beneficial to consider methods by which clients’ motivation to attend their GP could be improved.</li> </ul>

Measure	More detail on components	DARD spend to date (2011 to present)	Evaluation	Evaluation Recommendations/Discussion points/Observations
	<p>smoking, healthy eating, physical activity and alcohol consumption. The nurse can also signpost participants to a service that can ensure they are getting the grants and benefits they are entitled to.</p> <p>Post these phases participants receive free, confidential and tailored health advice and information about steps they can take to improve their health and wellbeing.</p> <p>They also receive a copy of their results and with consent a copy is sent to their GP.</p> <p>If nurses advise participants to see their GP, the nurse coordinator will contact them by telephone within four weeks of the health checks to discuss their results and offer further support if required</p>			<ul style="list-style-type: none"> <li>recommended that the importance of standardised care is reiterated to any nurse involved in screening</li> <li>a proportion of clients may be unnecessarily referred to their GP</li> <li>Clients should be contacted for follow-up three months post-screening to ensure data quality is high and the effects of poor recall are minimised</li> <li>Follow-up of clients into the MARA project and other signposted services would</li> <li>provide further evidence of the effectiveness of the programme in providing clients further support</li> </ul>
<p><b>MARA – Maximising Access to Services, Grants and Benefits in Rural Areas<sup>1</sup></b> – initially a pilot project with the Public Health</p>	<p>Utilises community networks and local knowledge to effectively identify and connect with people who could benefit from a household visit.</p> <p>No eligibility criteria for a MARA household visit. However, typically</p>	<p>2011-15 Phase2: £2,772,000</p>	<p>Yes October 2011 – completed by DeLoitte</p> <p><i>‘...project has provided value for money’</i></p> <p><i>The project has engaged with a significant number of rural</i></p>	<ul style="list-style-type: none"> <li>Continued need - rationale for maximising access to those “most in need” remains and it is recommended that DARD through the Rural ANTI Poverty Strategy and Social Inclusion Framework should continue to provide a specific intervention to meet this need</li> <li>Identifying need - the community development approach to engaging those most in need should continue to be applied.</li> </ul>

<sup>1</sup> [Mara Project Information Sheet](#)

delivered by the 7 Rural Support networks that cover Northern Ireland				

### 3 Northern Ireland Rural Development Programme (NIRDP) 2014-20

The 2014-20 NIRDP has a provisional budget of £623 million. Whilst DARD has yet to submit a finalised Programme to the European Commission for approval (due to happen on the 14<sup>th</sup> October). There is a requirement for the programme to meet at least 4 of 6 EU priorities, one of which Priority 6, *'Promoting social inclusion, poverty reduction and economic development in rural areas'*. A draft copy of the proposed NIRDP Programme does include specific and explicit reference to a Combating Poverty and Social Isolation – Basic Services Scheme (within Priority 6), more detail on which is provided in table 2 below. It should be noted that there may well be other measures within the finalised NIRDP which could directly or indirectly address issues relating to rural poverty, rural isolation and farmer welfare.

Table 2: NIRDP support 2014-20

## 5 Observations and commentary

- DARD is actively supporting a range of measures that are directly addressing issues of rural poverty, rural isolation and farmer welfare;
- In looking at the output data (where available) for many of these measures, it is clear that there are a significant number of beneficiaries as a result of this DARD expenditure. Notable examples here include the 278,654 Assisted Rural Travel Scheme supported journeys between April 2012- September 2013, and the more than 4,000 households recruited to the Maximising Access to Services, Grants and Benefits in Rural Areas (MARA);
- Many of the projects have also been subject to interim or final evaluations and the general tenor of these is positive in relation to programme impacts. It should however be noted that there are projects/supports which have still to be evaluated;
- Recommendations have been made for all of the projects/supports that have been evaluated and there may be value in considering how many of these recommendations have either been addressed in the current or will be incorporated in similar projects/supports going forward;
- There are clear instances of cross departmental working in projects such as the ARTS (DRD), MARA(PHA), Farm Families Health Checks(PHA), Rural Borewells (DRD), CERI (PHA and WHSCT), Fuel Poverty(DSD) and BOOST (DEL), and this model appears to have been successful. There could however be question marks around whether such an approach will still be viable if departmental spending pressures continue, or conversely whether the approach might actually be more attractive at a time of budgetary constraint;
- The participation of the community/voluntary and NGO sectors is key to the effective and targeted delivery of many of the projects/supports identified within this paper, and this highlights the facilitating role that DARD support can play in enabling those with local knowledge and expertise to bring this into play.
