

Good Morning,

I am writing in support of a strategic review of SEN provision as a special school teacher of 17 years who has completed postgraduate research in the field on several occasions and is in senior management within the sector. I am happy to support the review personally if I am useful in any way, but I am aware there will be many voices wishing to be heard. I just wanted to write in support of the process and to encourage those at the heart of it that it is so valued by those 'on the ground'.

I look forward to new strategy being implemented following this review and to working in a more equitable system for all children in the future.

Kind Regards,
