

Good Afternoon Everyone

I came from [REDACTED] in the [REDACTED] and have just recently required some records as to my whereabouts after I was born I'm now [REDACTED]

I'm hoping private nursing homes will be included in the Bill

According to these papers my birth bother paid for her time my time at the nursing home from her parents my birth father and my adoptive father

And decided and one stage not to sign adoption papers and she had changed her mind but did eventually sign two months later by coercion by a social worker (an ex nun) who knew my adoptive parents on a personal basis

So therefore I'm saying that no adoption was a positive choice for women from any institution or baby home
