

I wish to oppose the proposed Abortion Zone Bill.

First of all I wish to put to the Committee where is the evidence to show that woman are harassed or intimidated outside these abortion clinics? Clearly the pro abortion movement will do anything to stop woman being offered real healthcare, and will try everything to stop woman being denied life saving healthcare, because healthcare saves and protects lives. You cannot allow an abortion Zone Bill that denies people the right to peaceful protest? Surely under the Human Rights Act this allows people their human right to protest and that denying this right would mean denying it to everyone who wishes to peaceful protest for any other reason.
