

As a mother I am strongly opposed to the proposed application to prosecute any one who peacefully protests against abortion. Without the right to life, we have no rights. We as Christians are entitled to stand up for God's creation, and show how wrong and evil abortion is. Many women who have had abortions have bitterly regretted this decision that they can never reverse. They have said if they knew there was support for them they would never have taken this path that has left them bereft with regret and heart ache. Life is a gift, and we have no right to destroy what God has given us. Please do the right thing for mothers, fathers and siblings, and let us be the voice for those who have none.
