

As a resident within a democracy I ask that the proposed change to Safe Access Zones be defeated. It is the right to protest amongst others which make us a democracy .If we wish to be no better than the Taliban in Afghanistan then go ahead with this Draconian measure. Most protesters outside abortion centres are gentle pro life people who are frequently just praying quietly. They are a threat to no one. The real danger lies within the abortion centre,where the end result is -- one dead, one wounded.

Please vote against this proposed blight on democracy.
