

It is my duty as a Christian and a Citizen of Northern Ireland , who should have freedom of speech to inform you that I strongly disagree with the criminalization of speaking the gospel or offering help in these zones outside the obomination of NHS (yes I have a lot to say about their antics) clinics. AANI were doing great work helping those poor girls in every way they can , rather than make the decision to murder their babies , we only want them to know how much God loves them and what a precious gift a child can be and help financially or with other services, what is so wrong with us these days , that not only have we a quota / budget of number of abortions to meet each quarter, but we are losing free speech?

I know the whole truth I'm emailing you about the abortion zones as I support AANI and stand against murder of any individual, old people too, I know what this government has done , and the day will certainly come when you meet God , He will be your judge , you may meet judgement before that , I pray, but you won't win , God is on our side, He hates evil and that means the evil doer also , abortion and mandating experimental drugs , ignoring the deaths is wrong, and I am stating my objection to the criminalization of free speech and helping the ladies in these zones
