

I am vehemently and utterly opposed to the 'Abortion Zones' Bill. This Bill is effectively criminalising those who are pro-life (anti-abortion).

Those who are Pro-Life are no threat to anyone entering or leaving these abortion facilities.

We stand as silent witnesses for the value and dignity of all unborn children outside those buildings were this value and dignity is destroyed.

We recognise that a society which permits the destruction of the unborn is a society that is in desperate need for the balance of this witness.

Criminalising this peaceful presence makes no sense.

I am opposed to this move and would beg that the Committee recognise that the right to peaceful protest is a fundamental right, just like the right to life.
