

I wish to put forward my input into the meeting being held on the 12 th of November.

I do t not agree that people will not be permitted to pray or publicly and peacefully protest in Northern Ireland , especially regarding pro lifers outside the abortion centres. It is ridiculous that this is even being considered. We the people of this country should have a say in what new bills or laws are passed as they affect all the people it's never a good idea to target a certain group of citizens who believe they are doing good work and standing up for their beliefs. This bill should not even be given a second glance never mind being even considered as being a good idea nor is it needed. There is not a single person I know that agrees with this bill.
