

I am totally opposed to the Abortion Zones, criminalizing people peacefully protesting on behalf of the most vulnerable in our society, and in cases there helping those who think there is no other way, when there is.

These caring people have helped quite a number of women, physically and financially to give life to their babies.

I don't believe in anyone being harassed but one must be allowed peaceful protests on this, especially on this very very delicate and important matter.

After all there is a life at stake.

Please be compassionate when you are debating this - there is so much at stake.
