Subject: FAO Committee Clerk: Water, Sustainable Drainage and Flood Management Bill

Categories: Red category

You don't often get email from sophie.adlington@abi.org.uk. [Learn why this is important](#)

Good afternoon,

I hope you're well.

I'm getting in touch from the Association of British Insurers (ABI) as I was hoping you might be able to give me some insight into timelines and next steps for the above bill, which has now completed stage 2 and been referred to the Infrastructure Committee.

Insurance isn't a direct consideration in the Bill but as a sector we're doing a lot of work around sustainable drainage and flood management, so we'll be following its progress. We might also look to provide some evidence or background information to the Committee, so if there's anything you can share on when/how this would be best directed I'd be really grateful.

All the best,
Sophie

The ABI
