Thank you for following up Thomas

The Committee received a communication in relation to this from the Department a couple of weeks prior to the Justice Committee's correspondence.

It was clear from the correspondence received that this was an updating exercise to update names of leagues and associations (which have changed) on foot of a recent legal action.

Members of the Committee have noted both the DfC and your Committee's items of correspondence, without comment.

Kind regards.....Emer

Emer,

Can I check if your Committee considered this issue and plan on making any response?
No issues if they are not (and they probably don't want to comment owing to the ongoing, stayed court case) but if you do have anything, the Justice Committee will be considering this on Thursday so would need any response before then.

Thanks,

Thomas
