**Subject:** Inclusion of jades law Northern Ireland

Dear Committee Members,

I am writing to ask that Jade's Law be included in the Criminal Justice Sentencing Bill for Northern Ireland.

This law is urgently needed to ensure that when one parent takes the life of the other, they do not continue to hold parental rights and control over the children. It is essential that children are protected from further harm and placed at the centre of safeguarding and justice.

I would respectfully ask that you consider adding this to the Bill to provide the protection children in Northern Ireland need.

Yours sincerely [REDACTED]
