Dear Glenys,

[COM/2023/451 - Proposal for a Regulation on circularity requirements for vehicle design and on management of end-of-life vehicles](#)

At its meeting on 15 May 2025, the Windsor Framework Democratic Scrutiny Committee (DSC) agreed to seek views from stakeholders on the above proposed EU act.

The DSC is gathering views to put it in a more informed position should the published act be notified to it by Cabinet Office. [Read more about the Committee process here.](#)

Specifically, the DSC is seeking your views on whether applying/not applying the act would have a significant negative impact specific to everyday life of communities in Northern Ireland in a way that is liable to persist.

Should you wish to provide views, you can do so via Citizen Space at the following link: [COM/2023/451](#).

The DSC requests that you circulate the survey widely within your membership.

Please note that the survey will close on **12 June 2025**.

Yours sincerely,

██████████
