Impact of EU Act

1. Does it appear likely that the EU act would have a significant negative impact specific to everyday life of communities in Northern Ireland in a way that is liable to persist?

Yes

Tell us why :

Because it effects every citizen of Northern Ireland. It costs extra wages for every business to negotiate this minefield. I work in farming and construction .

In relation to farming it has put severe restrictions of livestock movements to and from GB. It is also severely restricting animal medicines , meal products and generally anything I want to buy or sell. The paperwork is a nightmare and this has a cost also. Machinery, plants even trees are subject to this..

In relation to building products and machinery this is the same. Many suppliers won't do business with NI because of the costs and who could blame them.

Every household in NI is affected by post, parcels and all food stuffs coming from GB with suppliers not supplying..

It is a disgrace that the elected representatives in stormont do not recognise this , it is clear that those representing us simply don't understand it , bury their heads in the sand or take political sides to annoy the other, shame on you .

2. Does it appear likely that NOT APPLYING the EU act would have a significant negative impact specific to everyday life of communities in Northern Ireland in a way that is liable to persist?

No

Tell us why:

NI is part of the UK . It is a disgrace that it is treated as a third country and border checks costing upwards now of 1 billion pounds has been used to control our own citizens. Of course our representatives in stormont don't think about this waste of money otherwise

you would object, but again party politics overrides this to create an all Ireland economy.

This could have been agreed with mutual agreements between the UK/ Ireland/ NI . It is clear that trade diversion is costing us money and that the EEC simply wants to control us at Irelands bequest.

3. Are there any other matters regarding the EU act that you wish to draw to the Committee's attention? Please note, any information provided should be of an evidential nature rather than a commentary.

Yes

Tell us why :

The amount of laws effecting us is a disgrace, something which the ordinary man cannot grasp and no doubt either can our politicians in stormont. Laws with which we have no say over or control.

A Nation that cannot control its borders is not a nation at all.

I believe that our assembly should object and pull the Stormont brake on all the EEC laws and take back control.

As I've said before , shame on Stormont politicians who bury their heads in the sand and take the easy route out of this because the neither understand how businesses and the public are being ripped off.
