A question and answer session followed.

The evidence session was reported by Hansard.

The officials left the meeting at 11.41am.

Members noted that, in order to meet its statutory requirements, the Committee must decide whether or not to hold an inquiry into the published replacement EU act.

The Committee had regard to:

- (i) the legal advice on whether it appears likely that the replacement EU act significantly differs (in whole or in part) from the content or scope of the EU instrument which it replaces, and
- (ii) the departmental initial assessment on whether it appears likely that the replacement act would have a significant impact specific to everyday life of communities in Northern Ireland in a way that is liable to persist.

The Deputy Chairperson proposed that the Committee hold an inquiry into Regulation (EU) 2024/1781 of the European Parliament and of the Council of 13 June 2024 establishing a framework for the setting of ecodesign requirements for sustainable products, amending Directive (EU) 2020/1828 and Regulation (EU) 2023/1542 and repealing Directive 2009/125/EC.
