

12. Oral Questions – June 2024

During Oral Questions to the Assembly Commission in June 2024, a number of Assembly Commission Members committed to bringing various matters back to the Assembly Commission for consideration. The questions and associated responses from officials are set out below for consideration.

“Is the Member aware of any plans to increase the number of electric charging point at Parliament Buildings?”

In addition to the two EV charging points currently in the lower east car park and four EV charging points in the upper car park, a further two EV charging points are being erected as demand continues to grow. The EV points are available for use by MLAs, Assembly Commission staff and visitors through a booking system.
