

# **Police Service of Northern Ireland**

## **Northern Ireland Assembly - Justice Bill 2014**

### PSNI Response

The Police Service of Northern Ireland has no specific issues to highlight in respect of the proposed Bill.

We support the addition of a Victim and Witness charter as a means to help further improve their experience and confidence in justice. The recently established Victim and Witness Care Units provide a valuable mechanism to help deliver the charter standards however full analysis of the impact on delivering the standards will only be clear when they have been fully identified.
