Gregory,

I refer to my answer to your Assembly Question, AQW 32668/11-15, in which I provided information on the number of requests made in 2013 for new street lighting adjacent to existing domestic properties where the number of properties met the criteria for street lighting.

My answer stated my Department had received 14 such requests in 2013. However, my Department's most recent assessment indicates this figure was incorrect and should have read 5 requests were made in 2013 for new street lighting adjacent to existing domestic properties, where the number of properties met the criteria for street lighting.

A revised version of my answer to AQW 32668/11-15 is attached for ease of reference and I apologise for any confusion that may have arisen.

This letter will also be copied to the Speaker, other Members, the Assembly Library, and the Office of the Official Report (Hansard).

I trust this information has been helpful.
