## **Annex A**

This issue is an operational matter for the Housing Executive.

I have sought the requested information from the Chief Executive, who has advised me as follows:

*“The following tables provide data for waiting list applicant households, and corresponding number of people, in housing stress; and (c) with Full Duty Applicant Status, on 31 March and on 30 September in each of the last ten years, broken down by local council area.*

*The Housing Executive report quarterly on waiting list figures (end June, end Sept, end Dec and end Mar) so are not able to report at 1 September, with 30 September being the closest available date. Please note that end September 2024 data is not yet available, so the latest available figures have been provided (end June 2024). Allocations data has also been provided for context.*

The figures for people on the waiting list are based on applicant households only, in line with normal reporting. Transfer applicants are already housed and are not included.

Household make up / grouping is recorded at point of application and may not reflect the current composition of the household. Note that applications are assessed on the circumstances of the head of household.

Applicant Information (all applicants and applicants in housing stress) is as at end of the respective month and year.

Allocation information refers to the number of allocations in the preceding 12month period.

FDA refers to Full Duty Applicants – these are applicants accepted as being homeless, to whom the Housing Executive owes a duty under the Homelessness legislation, Article 10(2) of the Housing (NI) Order, 1988 to “secure that accommodation becomes available for his/her occupation”.

Social housing waiting list and allocations data held by the Housing Executive, form part of the Northern Ireland Housing Bulletin, which is published quarterly as a National Statistic by the Department for Communities. Therefore, in order to avoid breaches of the code of practice for statistics, the most recent data provided is based on the most recently published data (end June 2024).
