DEPARTMENT OF EDUCATION

Paul Givan, Minister
Rathgael House, Balloo Road
Bangor, BT19 7PR

Michelle McIlveen MLA
Parliament Buildings
Ballymiscaw
Stormont

18 November 2026
AQW 55860/22-27

Michelle McIlveen MLA has asked:
To ask the Minister of Education to detail any schools which have been undersubscribed in each of the last three years, broken down by whether the school is (i) controlled; (ii) integrated; (iii) Catholic-maintained; and (iv) Irish-medium; and by whether it is (a) primary; and (b) post-primary, including its enrolment capacity, actual enrolment and the extent to which it was undersubscribed.

ANSWER

The requested information is provided in the assembly library.

Schools are classified by school type, management type and Irish-medium status.

These classifications are not mutually exclusive.

Paul Givan MLA
Minister of Education

Available places, 2023/24

Source: NI school census

Notes:

1. Number of available places calculation: Reflects the total number of places available in all schools from an admissions perspective. It is calculated by subtracting the actual enrolment (less supernumerary pupils) from the approved enrolment for each school.

2. Approved Enrolment - the number set annually by the Department which schools must not exceed without prior approval from the Department by way of a Temporary Variation. Supernumerary admissions lie outside the competitive admissions process and are therefore not subject to approved enrolment limits. Approved enrolment numbers are not set for preparatory departments, as open enrolment legislation does not apply to preparatory departments of grammar schools.

3. Actual enrolments - counts all pupils enrolled in the school on Census day, including admissions classified as supernumerary and admissions resulting from an approved temporary variation i.e. The Friday of the first full week in October (In 2025/26 this was 10 October 2025)

4. Supernumerary admissions – can take one of three different forms:

- Pupils can be admitted to a school based on the content of a Statement of Special Educational Needs which names a particular school that must then admit the child;
- Pupils can be admitted to a school (post-primary only) following a successful appeal to an independent Exceptional Circumstances Body (ECB) which rules on parental appeals citing exceptional circumstances that require the admission of a child to a particular school. This appeal route can only be used following an unsuccessful application to that school through the competitive (open enrolment) admissions processes;
- Pupils can be admitted to a school following a successful appeal to an independent Admissions Appeal Tribunal, where a parent asserts that a school has failed to correctly apply its admissions criteria as part of the competitive (open enrolment) admissions processes.

(*Pupils admitted to a school based on the content of a Statement of Special Educational Needs are classified as supernumerary admissions for the entire duration of their time at school whereas pupils admitted as a result of a successful admissions appeal or a direction of the ECB are classified as supernumerary admissions during the year of admission only. All of these pupils can be admitted above a school's approved enrolment number without the requirement for a Temporary Variation).

5. Available Places – denotes the number of places available in a school that can be applied for through the competitive admissions process. As schools have approved admissions numbers, limiting the number of children they can admit in their first year grouping, it is possible that a school with available places may have no places available in this year group.

- As a school's enrolment number is set taking a number of factors into account, and may or may not closely reflect the physical capacity of a particular school, the available places figure **cannot** be used to equate to the number of 'empty desks' or 'spare capacity' in the system.

* denotes figure fewer than 5

! denotes a figure suppressed because publication would enable a suppressed supernumerary pupil figure to be derived.

# denotes a figure suppressed because the value could be derived from totals published elsewhere
