# Topical Digest Sign Language Legislation

3 September 2024

This topical digest provides a reading list about the development of sign language legislation in Northern Ireland. The digest provides weblinks to a selection of recent research papers, Assembly questions, government department publications, academic journal articles, stakeholder reports and media articles.

Front cover images: <u>British Sign Language</u> (left) by Cowplopmorris and <u>Irish Sign Language</u> (right) by Aren8906754; both images used under <u>CC3.0</u>.

#### 1 Introduction

This topical digest provides a reading list of different resources about the development of sign language legislation in Northern Ireland. The most recent publications about sign language legislation were selected in August 2024. This digest is not intended to be fully comprehensive.

There are Sign Language Acts for Great Britain (2022), Ireland (2017) and Scotland (2015), and the introduction of a Bill was considered in the Welsh Parliament in May 2024. Northern Ireland is not covered by the British Sign Language Act (2022). Yet, Article 30 of the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD), ratified by the UK in 2009, states that:

"...persons with disabilities shall be entitled, on an equal basis with others, to recognition and support of their specific cultural and linguistic identity, including sign languages and deaf culture."

Most protections for the local Deaf community come under the <u>Disability Discrimination Act 1995</u>. In disability and equality legislation, provision of 'reasonable adjustments' for sign language users often means communication services, such as an interpreter. Accessing these 'reasonable adjustments' means identifying as disabled. <u>Many in the Deaf community</u> prefer explicit legal recognition as an indigenous cultural-linguistic minority, with legislation to protect and promote Deaf culture. Also, <u>research persistently shows</u> that the provision of 'reasonable adjustments', such as sign language interpreters to support access to health, education and employment, is still lacking, despite a more implicit approach to disability legislation. A <u>House of Commons Early Day motion in 2013</u> suggested this was due to a lack of public understanding of sign languages as well as qualified interpreters. Many of the organisations supporting deaf people in Northern Ireland operate on a UK-wide basis and are headquartered elsewhere; witnesses at a <u>Communities Committee hearing in March 2021</u> described the difficulties of getting local communications support, particularly the challenges of having to use different video relay services, depending on the public service they were trying to contact.

Data about the number of sign language users in Northern Ireland is another issue. According to the <u>Department for Communities</u>: "...BSL is the first or preferred language of communication of approximately 3,500 members of the Deaf population of Northern Ireland while approximately 1,500 use ISL." According to the <u>Department of Health</u>, there are

approximately 8,000 sign language users in Northern Ireland. The Continuous Household Survey in 2013/14 reported that 9% of all adults in Northern Ireland could use sign languages, with 8% using BSL and 1% using ISL.

This Topical Digest provides a range of different publications and resources to assist with scrutiny of upcoming sign language legislation in Northern Ireland. Readers should note that some of the resources provided are from advocacy groups.

# 2 Legislation

- British Sign Language Act 2022 (28 April 2022)
- Parliamentary Bill: <u>British Sign Language Act 2022</u>
- British Sign Language Bill: Explanatory Notes (July 2021)
- Irish Sign Language Act 2017
- British Sign Language (Scotland) Act 2015 (October 2015)
- Special Educational Needs and Disability Act (Northern Ireland) 2016 (March 2016)
- <u>Disability Discrimination Act 1995</u> (November 1995)

# 3 Government publications

- Department for Communities, <u>Communities Minister outlines way forward for Sign</u>
   <u>Languages</u> (20 February 2024)
- Department for Communities, Sign language home page (Accessed August 2024)
- Department for Communities, <u>Sign Language Framework Consultation</u> (ended July 2016)
- Department for Communities, <u>Sign Language Framework</u> (2016)
- Department for Communities, <u>Best practice guidance on providing public services to deaf</u>
   people who use British Sign Language or Irish Sign Language (March 2015)
- Health and Social Care, <u>New Sign language Interpreting Service for Health and Social</u>
   <u>Care appointments</u> (30 March 2023)
- Health and Social Care, <u>Remote interpreting service established for sign language users</u>
   (April 2020)
- Health and Social Care, <u>Sign Language Interpreting Service update on Sign Language</u>
   <u>Interactions</u> (January 2023)
- B Byrne and C McNamee, <u>The Emotional Wellbeing of Deaf Children and Young People</u>, commissioned by Northern Health and Social Care Trust (November 2022)
- New Decade, New Approach Agreement. Page 37. Para 5.30 (January 2020)

# 4 Northern Ireland Assembly

#### **Assembly Questions:**

- AQO 36/22-27
- Questions on Sign Language (2022-Present)
- Questions on Sign Language (2017-2022)

#### **Culture, Arts and Leisure Committee Minutes of Evidence:**

Sign Language Review: DCAL Briefing (13 November 2014)

#### **Research and Information Service Briefing Papers:**

- Sign Language Legislation (November 2020)
- Legislation and policy on sign language in the UK and Ireland (May 2014)

# 5 Stakeholder insights
